A Winter Survival Kit Can Save Your Life

When travelling during the winter, be sure to have a winter survival kit in your car. If you have an emergency, it could keep you alive and warm until help arrives. Your winter survival kit should include:

- A snow shovel (folding shovels are available from camping stores)
- A bag of salt or sand (clay kitty litter will also work)
- Quality jumper cables
- Traction pads or pieces of carpeting
- Flares
- Flashlight with working batteries
- Tow chain or rope
- First Aid Kit
- Space-age thermal blanket (also available from camping stores)
- Warm hat, mittens and socks
- Candles and matches
- Chocolate bars or other energy food
