

We were very lucky to find Louie Delaware, and Colorado Childproofers. With a very active nine month old we really needed to find a child safety specialist in a pinch. After asking both our pediatrician and friends we were frustrated to discover how limited a resource child safety specialists really are and this makes Colorado Childproofers a great find!

Thankfully Louie was very responsive to our request for information and quickly got us educated as to what products would best suit our house – making the environment both safe and user friendly. We highly recommend Louie Delaware and Colorado Childproofers to anyone having either simple or complex safety needs.
