

My wife & I finally found the perfect home for our 2 girls [ages 1 & 4]. We were moving from a ranch home to a 2 story - doubling our square footage. I wasn't comfortable handling this project alone - our previous home only needed one gate.

I was lucky to find Louie Delaware's' company Colorado Childproofers, LLC and called for some help. I knew we couldn't even think about moving in until gates were installed. Louie installed 5 door gates & 1 wall gate for the playroom right after we closed on the house. He finished that evening, allowing us to start moving in the next morning.

During the initial install, he went over a variety of childproofing ideas for us to consider. His web site offered even more ideas & information. We had Louie back the following month to install hinge guards, cabinet latches & anti tip devices among other things.

The Denver Front Range area is fortunate to have this service available to them. I don't think you will find any other childproofing company with the education, time & experience that Colorado Childproofers offers.
