

Dear Louie & Colorado Childproofers,

Thank you for coming to our home and helping us childproof for our twin boys.

After doing my own exhaustive childproofing research, I was overwhelmed by the hundreds of childproofing products out there and uncertain about which were best for our particular home.

Your thorough assessment was valuable, and your consultation helped us narrow down the product choices into manageable solutions. Our home presented unique challenges, and your recommended solutions were creative and necessary. We also appreciate that you were respectful of our home and trustworthy.

Thanks again for your professional guidance in making our home safe for our children.

Marcia & Rob D.
