

Mr. Delaware,

Before hearing about your service, I was at a complete loss as to how to childproof our home for our eight-month old daughter, Sonja. She was just beginning to crawl and I was terrified of making a mistake. Not only was I leery about installing the equipment myself, but I had no idea what equipment I needed.

Prior to calling you, I mistakenly believed all childproof products were created equal. You pointed out the differences and recommended the ones that would be right for my lifestyle and family while ensuring the maximum safety for our daughter. Thanks to your experience and professionalism, your installation of the products went extremely smoothly. Your attention to detail, aesthetics, and even clean-up, was flawless. With your advice, recommendations, and installation, you single-handedly alleviated the home safety concerns we had for Sonja as she grows and becomes more mobile.

We couldn't have done it without you. I would unreservedly recommend your service to anyone approaching the daunting task of child-proofing their home. Your company made it simple and, above all, did it far better than I could have myself. Thank you for your professionalism and expertise.

Yours truly,

Scott and Jana B.
Denver, CO
