

As a first time Mom with a very active nine month old, I felt at a loss about the best way to childproof our home. After doing a little research I was fortunate enough to find Louie Delaware and Colorado Childproofers. I also find that childproofers are difficult to find in this area and I was so happy I found Colorado Childproofers.

Louie Delaware was incredibly knowledgeable about child safety products and what types of things would work well for our home. When Louie came to our home to complete the installation he was incredibly professional as well as neat! I highly recommend Louie Delaware and Colorado Childproofers to anyone needing help with childproofing in their home.
